EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew D. St. Clair (58,739) on 10/13/2009.

The application has been amended as follows:

In Claim 63: The fibrous nanocarbon according to claim 59, wherein said carbon nano-fibrous rods constituting said carbon nano-fibrous [_] rod cluster are arranged at an arrangement angle of larger than 0 degree but smaller than 20 degrees with respect to an axis perpendicular to a fiber axis extending in said stacking direction, thereby forming a columnar shape.

In Claim 91: The method for producing fibrous nanocarbon according to claim 90, wherein the high velocity flow portion includes a collision portion [is].

In Claim 97: The method for producing fibrous nanocarbon according to claim 96, wherein the apparatus includes a plurality of the first fluidized bed reactors.

The following is an examiner's statement of reasons for allowance: Upon reconsideration in light of Applicants arguments, the prior art does not teach the fibrous nanocarbon with the specificity needed to anticipate or render obvious the claimed invention. While various morphologies are known (Rodriguez) and fluidized beds have been employed in carbon nanotube/nanofiber manufacture (Resasco), the prior art did not disclose the fibrous nanocarbon with the dimensions required and in the conformation required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
